Full name \*  
Kohli

Email \*  
kohli.mishra@gmail.com

Title of your Article \*  
Data Science

Provide few bullet points about the different areas that you will be covering \*  
mathematics, statistics, artificial intelligence, and computer engineering to analyze large amounts of data. This analysis helps data scientists to ask and answer questions like what happened, why it happened, what will happen, and what can be done with the results.

14th TAF Showcase session: Deepfactor (www.deepfactor.io)

Session: Share

More videos

It was an absolute pleasure to have [Kiran Kamity](#), Founder & CEO and [Dinesh Mistry](#), VP of Sales and Customer Excellence at DeepFactor to discuss about Deepfactor. We talked about their team's journey so far, how the platform is helping their global customers to develop secured Enterprise Apps and most importantly we had a great product walkthrough of the platform. Also wanted to thank [Virginia](#)
